

Conseil général de l'Isère - PATTOU Frédéric (Econnect)

**Successful implementation of measures to improve
ecological connectivity:
frame conditions at a regional level**

**Transsectoral Workshop in Grenoble (FR),
29th September 2014, 14:00-17:30**

AGENDA

- 14:00** Welcome by the greenAlps Leadpartner (Michael Vogel/ALPARC) and the presidency of the Platform Ecological Network of the Alpine Convention (Marie-Odile Guth/MEDDE)
- 14:15** Overview about the current activities and results of the greenAlps Project and introduction to the Workshop (Guido Plassmann/ALPARC)
- 14:40** How policies can enable biodiversity: the instruments proposed by European policies and the role of Stakeholders in their implementation (Chris Walzer/FIWI)
- 15:20** Toolbox for the regional implementation of the French policy on Green and Blue Infrastructure (TVB) at regional and provincial level (Region Rhône-Alpes)
- 16:00** *Coffee break*
- 16:20** Instruments for the implementation of transboundary projects of the Canton of Geneva (Switzerland)
- 17:00** Discussion: What are the key aspects for ecological connectivity implementation at regional level?
- 17:30** End of the day
- 19:30** *Common dinner*

The field trip that will be organized for the members of the Platform Ecological Network of the Alpine Convention the next morning will show some concrete examples of the implementation of these tools presented and discussed during the Workshop.
